HoleBore™ - Fixed Blade	6mm
HoleBore™ - Fixed Blade	7mm
HoleBore™ - Fixed Blade	8mm

Various packs of fixings and a HoleBore™ Fixings Installer also available.

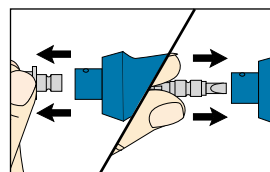

How to Use

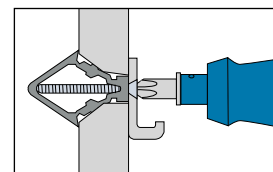

1. Using appropriate size HoleBore™ for the fixing, push the tip into the substrate. Apply even pressure whilst twisting alternately clockwise and anti-clockwise until the bore passes through the substrate. Withdraw HoleBore™ from hole.

2. Insert fixing.

3. Remove the blade from the HoleBore™ handle and replace with screwdriver bit provided.

4. Tighten until secure.
